

**Exhibition Hall, Booth 8**

**WED SEP 25**

**15:30–16:30 Tobias B. Huber, MD and William E. Smoyer, MD**

*President, ISGD; Director, 3rd Dept. of Medicine, University Medical Center Hamburg-Eppendorf & Hamburg Center for Kidney Health*

*VP for Clinical and Translational Research, Nationwide Children's Hospital (US); Founder, Pediatric Nephrology Research Consortium (PNRC)*

**podocyte biology • anti-nephrin antibodies • clinical trials •  
biobanking & registries • minimal change disease • podocytopathies • research consortia •  
learning health systems • translational platforms**

**THU SEP 25**

**10:30–11:30 Eugene Chan, MD**

*Clinical Assoc. Prof., Dept. of Paediatrics, Chinese Univ. of Hong Kong; Assoc. Consultant, Hong Kong Children's Hospital; Co-Chair, IPNA Prof. Edu. Committee; Assoc. Editor, Kidney International; Section Editor, Pediatric Nephrology*

**biologics for nephrotic syndrome • lupus nephritis • onconeurology**

**12:00–13:00 Jun Oh, MD**

*Treasurer, ESPN; Director, KfH Kidney Center for Children and Adolescents; Chief, Dept. of Paediatric Nephrology, GI and Transplantation, Univ. Medical Center Hamburg-Eppendorf*

**transplant immunology • clinical trials • glomerular biology • complement-related diseases**

**15:00–16:00 Louise Oni, MBChB, MRCPCH, MA, PhD**

*Senior Lecturer in Paediatric Nephrology, U. of Liverpool; Honorary Consultant Paediatric Nephrologist, Alder Hey Children's Hospital; Director, LifeArc-KRUK Centre for Rare Kidney Disease*

**academic careers in paediatric nephrology • clinical trials • translational research • glomerulonephritis**

**16:00–17:00 Antonia Bouts, MD**

*Paediatric Nephrologist, U. of Amsterdam & Emma Children's Hospital, University Medical Centers*

**kidney transplantation • nephrotic syndrome • post-transplant recurrence**

**FRI SEP 27**

**9:30–10:30 Francesco Emma, MD**

*Head, Dept. of Paediatric Subspecialties, Bambino Gesù Children's Hospital (Rome); Author, Pediatric Nephrology textbook (Springer)*

**rare kidney diseases • nephrotic syndrome • cystinosis**

**10:30–11:30 Laurence Greenbaum, MD, PhD**

*Director of Pediatric Nephrology; Professor of Pediatric Nephrology, Emory U. (Atlanta, US)*

**minimal change disease • FSGS • steroid-sensitive and steroid-resistant nephrotic syndrome •  
clinical trials • patient education • paediatric to adult care transition**
